

RAV - The US\$ 1.7 billion Richmond Airport Vancouver Rapid Transit Project (RAV) will connect the Airport area with downtown Vancouver. It will be a little over 12 miles in length, with 19 proposed stations. Construction is scheduled for 2005-2009.

Sea to Sky - This is a US\$ 445 million major upgrade of the Vancouver to Whistler highway. It is a challenging project from a design and environmental perspective.

Convention Center Expansion - This US\$ 380 million expansion of Vancouver's Convention Center will increase the Center's capacity to 1.2 million square feet.

Translink Projects - Translink, Vancouver's regional transportation authority, announced their 10-year outlook and three-year capital plan, which consists of projects valued at US\$ 2.5 billion dollars. The three-year capital plan, part of the overall US\$ 2.5 billion 10-year outlook, is worth an estimated US\$ 1.4 billion dollars, and will be implemented between 2005 to 2007. The entire capital plan is scheduled for completion by 2013.
